제 목 : Request for Cooperation regarding Development of 2025 Classification Technical Rules

Job Id. :

1. We at KR extend our most sincere wishes for the continued prosperity of your esteemed organization. We also express our profound gratitude for your ongoing cooperation, which significantly contributes to the advancement of KR.

2. KR is unwavering in its dedication to the exertion of efforts in the development, establishment, and revision of Classification Technical Rules, ensuring alignment with cutting-edge technologies. Should your esteemed organization identify any aspects that may benefit from revision or note any inconsistencies in the application of Classification Technical Rules, we earnestly encourage you to bring them to our immediate attention. We are committed to thoroughly reviewing and promptly incorporating such amendments into the Classification Technical Rules.

3. In this regard, should there be any aspects requiring revision, we respectfully request that you inform us by utilizing the attached request form by **16 February, 2024**. We kindly ask that submissions be directed to either the Hull Rule Development Team (E-mail: hullrule@krs.co.kr) or the Machinery Rule Development Team (E-mail: machrule@krs.co.kr). Rest assured, your feedback will be reviewed with the utmost seriousness. We will provide a comprehensive response regarding the review outcomes and incorporate pertinent findings into future iterations of the rules. Your insights are integral to KR's steadfast commitment to excellence.

※ Attachment: Request for establishment/revision of Classification Technical Rules Form ----
---- 1 Copy.
